

Welcome to Nutanix Enterprise AI!

In this document, you'll find all the instructions and credentials necessary to connect to our Hosted POC Lab, access the lab guide, and log into your designated Nutanix Cluster. Let's begin!

Getting Connected

Connecting to our lab requires using a VDI solution called Parallels.

Connect To: <https://dm3-ras.hpoc.nutanix.com>

USERNAME	PASSWORD
PHX-POC258-User05@nutanixdc.local	nx2Tech123!

Accessing the Lab Guide

Once inside the VDI desktop, open Chrome. Use the following URL to access the guide:

<https://tinyurl.com/nai260726>

Cluster Info

You can log into Prism Element and Prism Central using the following credentials. Open Chrome and use the PCIP Address to access your assigned cluster.

PRIMARY CLUSTER	PRIMARY PCIP	USER ID	PASSWORD
PHX-POC258	10.38.30.7	adminuser05@ntnxdemo.local	nx2Tech123!

Please refer to these as well while doing the lab:
